

Create the Future You Want and Deserve!

A 5-Step Action Plan

C = Create a vision for your ideal outcome for yourself. Whatever it is that you want to have, be, or do that is different from your current reality, simply create the vision for it. Visualize it. Create it in your mind first where all good things begin.

A = Activate your belief in your ability to achieve the outcome you envision for yourself. If you don't believe in yourself, you can't move forward. You must be willing to believe that you **CAN** achieve whatever your vision for yourself is. Don't let your own negative beliefs stop you before you get started.

N = Let **Nothing and No One** stand in your way as you go about doing *whatever it takes* to make your dream for yourself become a reality. Don't hurt anyone, and don't break any laws or do anything unethical. But short of that, decide to ignore the naysayers who may try to tell you that you can't do what it is you want to do. They will stop you if they can. Don't let them.

D = Demonstrate through regular, small **Daily action** your willingness to follow through on your belief in yourself and your vision, and complete assignments for yourself each day, each week, each month, and each year, establishing the momentum you need for an ultimately successful endeavor.

O = The **Outcome** will be the inevitable result of your vision for your future success. If you have followed all of the other steps, your **outcome** will be whatever you envisioned for yourself--or something *even better*.
